

Nissim Zarur

Senior Full Stack Engineer | Cloud Architect | Agentic AI Engineer
Northern District, Israel | 052-3232388 | Nissimzarur@gmail.com | [LinkedIn](#)

Professional Summary

Senior Full Stack & AI Engineer with 7+ years of experience designing and building scalable cloud-native applications, distributed systems, and AI-powered platforms. Experienced across React, TypeScript, Node.js, Python, AWS, and Agentic AI, delivering production systems for healthcare, startups, and enterprise organizations.

Passionate about building clean, maintainable software using SOLID principles, design patterns, Domain-Driven Design, and event-driven architectures. Recently focused on developing Agentic AI systems using LangGraph, RAG, tool calling, and multi-agent orchestration to automate complex business workflows.

Professional Experience

Cloud & Full Stack Engineer | Igenify (Healthcare)

March 2025 – Present

Stack: TypeScript • React • Vue • Node.js • Python • MongoDB • AWS • AWS CDK • LangGraph • RAG • Vector Databases

- Architected and rebuilt a cloud-native healthcare platform from the ground up, delivering a scalable multi-tenant SaaS solution.
- Designed and developed Agentic AI systems using LangGraph, orchestrating multi-agent workflows, tool calling, RAG, and stateful AI processes.
- Engineered a multi-tenant event-driven microservices architecture using AWS CDK and isolated database schemas.
- Designed modular frontend architecture enabling independent feature ownership and parallel development.
- Implemented dynamic workflow engines for configurable healthcare flows.
- Collaborated with product managers, architects, and clinicians to deliver scalable technical solutions.
- Improved platform reliability through clean architecture and reusable components.

Hands-on Tech Lead | LetsTok.AI

Dec 2021 – March 2025

Stack: TypeScript • React • React Native • Node.js • AWS • GCP • OpenAI • Vertex AI

- Led AI-powered web and mobile application development, increasing user retention by 15%.
- Built AI chatbot infrastructure using GPT and Vertex AI.
- Introduced RAG-based retrieval systems, improving response accuracy by 25%.
- Led a team of 3 engineers through mentoring and code reviews.
- Reduced deployment time by 20% by optimizing CI/CD pipelines.
- Designed scalable microservices architectures.

Full Stack Developer | Bafi

Feb 2019 – Dec 2021

- Led enterprise web and mobile application development for a major insurance company.
- Built payment automation, policy renewal, and reporting systems.
- Applications served thousands of daily users while automating ~30% of manual processes.

Software Developer | Kinneret Academic College

Jan 2018 – Feb 2019

- Developed GPS-based web and mobile applications.

Technical Skills

Languages: TypeScript, JavaScript, Python

Frontend: React, React Native, Vue, Redux, MobX, React Query, Apollo Client, Tailwind CSS, Material UI

Backend: Node.js, NestJS, Express, REST, GraphQL, WebSockets, Redis, TypeORM, Microservices

Cloud & DevOps: AWS, AWS CDK, Docker, Kubernetes (EKS), CI/CD, GitHub Actions, GCP, Firebase

AI: Agentic AI, LangGraph, RAG, OpenAI SDK, Claude Code, CrewAI, Prompt Engineering, Vector Databases, GPT, Vertex AI

Architecture: System Design, Distributed Systems, Event-Driven Architecture, Domain-Driven Design (DDD), SOLID, Design Patterns, Clean Architecture

Testing & Tools: Jest, Playwright, Cypress, Storybook, Jira, Figma

Certifications

- AWS Certified Cloud Practitioner
- AI Engineer Agentic – Lagency

Education

B.Sc. Software Engineering
Kinneret Academic College

Personal Strengths

Technical Leadership • Problem Solving • System Design • Mentoring • Fast Learner • Team Collaboration
